BRIEF SUMMARY

As a highly motivated B.Tech. CSE student focused on growing my expertise in the MERN stack, I am eager to leverage my skills and knowledge in a dynamic environment. With hands-on experience in frontend development, including React.js, React Router for routing, and DOM manipulation, as well as a strong understanding of programming languages like Java and JavaScript, I am currently advancing my skills and planning to delve into backend development. Additionally, I have a good understanding of data structures and algorithms (DSA) concepts and can handle medium-level questions on leetCode. My goal is to apply my technical expertise and passion for technology to drive impactful results and achieve professional growth.
